

June Newsletter

In this newsletter we want to highlight the HMS Market Advantage when working with our Universal Design department.

Handicare 1100 Series Stairlift

https://www.handicare.ca/product/1100-straight-stairlift/

HMS ensures that we always have stock of the 1100 Series. We order 10 at a time to achieve this and it takes about a week for our order to come in thanks to Canadian manufacturing with Savaria. We also pride ourselves in stating that we have and will continue to install the very next day if that's what the client requires. We also RENT this product on a monthly basis.

Handicare Freecurve Custom Stairlift https://www.handicare.ca/product/freecurve-curved-stairlift/

Using 3-D imaging we create a perfect fit when needing a custom stairlift. Best of all, HMS offers a 2-3 week delivery date from approval of design!! Nobody can compete with us right now with the quality of Savaria and the speed at which we can deliver.

Upcoming Events and In-services

New HMS Staff Member for Outside Sales - Jesse Mingo

Hi! My name is Jesse Mingo and I am beyond excited to be Home Medical Solutions' newest External Sales Representative. My deep passion for this career is rooted in my academic history in Health Sciences. Improving quality of life and outcomes for Albertans is the primary goal of HMS, and a journey that I am grateful to be a part of.

I am an Alumni of the University of Western Ontario, and throughout my tenure there I was fortunate to be an accomplished player on the Men's Varsity Soccer team. Every day I value what soccer and all sports has done and continues to do in my life. Now that I have graduated, I am eager to contribute my knowledge, enthusiasm, and drive to excel in this new role, making a meaningful impact in the healthcare industry.

This June, help us and the Alzheimer's Association to create awareness by wearing Purple. For more information, please see the website below.
